Description: This project provides for master planning, design and construction of Mission Bay Golf Course. Work will include renovation and reconstruction of the existing course and will consist of new landscaping and irrigation, upgraded electrical and lighting system, drainage improvements, installation of cart paths near tee boxes and improvements to the signage, fencing, and sand bunkers. Description: This project provides for the replacement of damaged portions of the existing cart paths within Torrey Pines Golf Course. This project also provides for construction of the missing paths and reconstruction of portions of the paths that are too narrow for motorized carts.

Justification: The original cart paths were constructed decades ago for use by manual golf carts. Today's golf courses including Torrey Pines Golf Course use motorized golf carts which are wider and heavier than their original counterparts. As a result of years of use, some portions of the existing cart paths within Torrey Pines Golf Course are cracked, severely worn out and otherwise damaged beyond repair. This project will remove and reconstruct the damaged portions of the cart paths. In addition, some portions of the existing cart paths are too narrow and need to be widened to accommodate today's golf carts. This project is needed to address these areas.

Project Status: Technically completed	Contact Information: Oliver, Kevin

Description: This project provides for the acquisition, design and construction of a 30 useable-acre community park serving the Black Mountain Ranch and Torrey Highlands communities. Phase I includes the construction of 13 acres, including the athletic fields and a parking lot. Phase II will complete the remaining 17 acres and its associated amenities. The project costs are dependent upon all developments within the Black Mountain Ranch and Torrey Highlands communities providing their fair share toward the costs of the park.

Justification: This project will contribute to satisfying the population-based park acreage requirements set forth in the City's General Plan and provide additional park acreage in a community that is deficient of park land. The community park will provide for additional recreational opportunities to the community.

Operating Budget Impact: Operation and maintenance funding for Phase I (13 acres) of this facility was previously included in the Park and Recreation budget. The remaining 17 acres and amenities require an ongoing operational budget for non-personnel expenses. The current cost estimate of \$268,000 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are considered.

Relationship to General and Community Plans: This project is consistent with the Black Mountain Ranch and Torrey Highlands Subarea (Community) Plans and is in conformance with the City's General Plan.

Schedule: Phase I construction was completed in Fiscal Year 2006. Phase II of this project is scheduled to begin in Fiscal Year 2013. Project schedule is dependent upon the development within the community.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2012.

McAuliffe Community Park Development Phase 2 / S00664

Council District:	5	Community Plan:	Mira Mesa
Project Status:	Released	Contact Information:	Sharpe, Deborah
Duration:	2000 - 2010		619-525-8261
Improv Type:	New		dsharpe@sandiego.gov
Priority Score:	12	Priority Category:	Low

Description: This project provides for design and construction of park improvements at McAuliffe Community Park, located at the west end of Winterwood Lane in the Mira Mesa Community Plan area, formerly known as Winterwood Lane Community Park. Due to environmental constraints, this site will not provide adequate acreage to support community park activities. Approximately 12 of the total 25 undeveloped acres will be conveyed to the School District as a vernal pool habitat mitigation site in exchange for approximately 6 usable acres of School District-owned property adjacent to Salk Elementary School and Maddox Neighborhood park for the development of park and joint use facilities. The recreational uses and design of any remaining developable acres (approximately 7.5 acres) on the McAuliffe park site will be determined through the community input process. Park improvements could include an open turf area, children's play area, scenic overlook, walkways, off-leash dog area, comfort station, security lighting and landscaping.

Justification: This project provides population-based park acreage in accordance with the City's General Plan standards to accommodate the park and recreational needs of the residents of subdivisions within a 1½ mile radius from the park.

Operating Budget Impact: This facility will require an on-going operational budget for personnel and non-personnel expenses. The current cost estimate of \$153,600 is based upon the Park and Recreation Department's current cost to maintain various landscaped areas. Operational costs for the project will be revised as all amenities and unique site characteristics are considered.

Relationship to General and Community Plans: This project is consistent with the Mira Mesa Community Plan and is in conformance with the City's General Plan.

Schedule: Completion of design has been delayed due to environmental constraints. Conveyance of the mitigation site to the School District is scheduled to occur in Fiscal Year 2012. Design and construction of the remaining usable park acreage will be scheduled as funding becomes available.

Summary of Project Changes: Public Facilities Financing Plan for Mira Mesa is being updated and will impact funding schedule.

Inspiration Point Precise Plan / S00615

Council District: 3	Community Plan: Balboa Park
Project Status: Released	Contact Information: Sharpe, Deborah
Duration: 1992 - 2014	619-525-8261
Improv Type: Replacement	dsharpe@sandiego.gov
Priority Score: N/A	Priority Category: N/A

Description: This project provides for the completion of the Inspiration Point Precise Plan which will provide policy direction for future development of approximately 50 acres within this area of Balboa Park.

Justification: Inspiration Point is one of the subareas within Balboa Park for which the 1989 Balboa Park Master Plan mandates a Precise Plan. A draft Precise Plan was prepared by the landscape architectural firm of the The Pekarek Group in 1998 with public input; however, it lacks an Historical Preservation Element required by the Historic Resources Board. Since that time, the Balboa Park Parking Study was completed which impacts the Precise Plan as drafted. To complete the Precise Plan, the document must incorporate both an Historical Preservation Element and the approved Parking Study recommendations, as well conduct an environmental review prior to undergoing the approval process.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the 1989 Balboa Park Master Plan and is in conformance with the City's General Plan.

Schedule: Planning began in Fiscal Year 1996 and a draft Precise Plan was completed in 1998. The project was put on hold until funding could be identified to hire a consultant to prepare the Historic Preservation Element to complete the document, prepare the CEQA document and process the Precise Plan for approval. Completion of the project will be scheduled when funding is identified.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2012.

Kumeyaay Lakes Berm Restoration and Dredging / S00655

Council District: 7	Community Plan: Navajo
Project Status: Released	Contact Information: Sharpe, Deborah
Duration: 2002 - 2014	619-525-8261
Improv Type: Betterment	dsharpe@sandiego.gov
Priority Score: 27	Priority Category: Low

Description: This project provides for the dredging of two lakes and reconstruction of a lake berm within the Kumeyaay Lake system at Mission Trails Regional Park.

Justification: A berm that surrounds the lakes was breached during the 1995-96 rainy season. Since that time, the San Diego River's flow has been redirected through the Kumeyaay Lakes, to the detriment of the lakes. Impacts include sedimentation of the lakes, the introduction of exotic invasive aquatic plants and the decline of an adjacent state wetland mitigation site through which the river once flowed. Dredging of the lakes to remove accumulated sediments and unwanted plant materials will restore the health and vitality of the lakes and the adjacent mitigation site, which depends upon a flowing water source.

Operating Budget Impact: None.

Relationship to General and Community Plans: This project is consistent with the Mission Trails Regional Park Master Development Plan, the Navajo Community Plan, and is in conformance with the City's General Plan.

Improv Type: Betterment	dsharpe@sandiego.gov
Priority Score: N/A	Priority Category: N/A

Description: This project provides for an update to the 1985 Mission Trails Regional Park (MTRP) Master Development Plan to identify completed capital projects and to guide future expansion, development and preservation of the park, as well as to provide an environmental document to determine potential impacts. Extensive recreational use, illegal off-road vehicle activity, erosion, urban runoff, and invasive non-native plants are potential threats to the continued health of the Park's natural resources. The MTRP Natural Resource Management Plan is a part of the implementation task of the City of San Diego's Multiple Species Conservation Program (MSCP). The MSCP was officially adopted on March 18, 1997; The United States Fish and Wildlife Service and the California Department of Fish and Game approved the plan on July 17, 1997.

Description: This project provides for the design and development of North Chollas Community Park, located on College Grove Drive midway between 54th Street and College Avenue. Phase I improvements consist of a sports field, parking area, access road, tot lot, and comfort station with concession area. Future phases may include additional sports and multi-purpose fields, a play area, basketball courts, picnic areas, additional parking areas, creek enhancement, trails, a gymnasium, and a dog off-leash area.

The current cost estimate of \$84,000 is based upon the Park and Recreation Department's estimated cost to maintain various landscaped areas. Operational costs for the project will be revised as the project is refined and all amenities and unique site characteristics are considered.

Relationship to General and Community Plans: This project is consistent with the Mid-City: Eastern Area Community Plan and is in conformance with the City's General Plan.

Schedule: The multi-purpose ballfield was completed. Remaining Phase II improvements and additional phases will be scheduled as funding is identified.

Mission Trails Regional Park Trail Realignments / S10066

Council District: 7	Community Plan: Navajo, Tierrasanta
Project Status: Created	Contact Information: Ball, Laura
Duration: 2009 - 2012	619-533-6727
Improv Type: New	lball@sandiego.gov
Priority Score: 20	Priority Category: Low

Description: This project provides for design, engineering and construction of approximately 5,000 linear feet of new (realignment) trail and rehabilitation of approximately 3,500 linear feet of existing trail. This is to supplement existing and increased recreational activity of all visitor user groups (hikers, bikes, equestrian) and to stabilize and protect sensitive habitat and natural resources currently impacted by poor trail alignment. Improvements will include vegetation pruning and trimming, as well as hand crew manipulation of soils for best location of trails that will meet City Trail Standards (safety and sustainability). Locations of these trail realignments have been roughly engineered on-site but will require environmental review and approval. No grading is anticipated. No trails in this area are Americans with Disabilities Act (ADA) accessible and this realignment would not provide (ADA) opportunities due to lack of access.

Justification: New realignment will provide for improved safety to visitors and protection of sensitive resources.

Operating Budget Impact: Operation and maintenance funding for this facility will be included in Park and Recreation's budget.

Relationship to General and Community Plans: This project is consistent with the Mission Trails Regional Park Master Plan, the Navajo and Tierrasanta Community Plans, and is in conformance with the City's General Plan.

Schedule: Design and construction began in Fiscal Year 2009 and are scheduled to be completed in Fiscal Year 2012.

Summary of Project Changes: No significant changes has been made to this project for Fiscal Year 2012.
